CVRSA Fair-Play Policy

This is mandatory

Clubs are strongly urged to adopt roster sizes that are appropriate for the recommended game formats. However, there will be times when one or both teams have small rosters or are shorthanded. In the interests of good sportsmanship, the team with more players will play with fewer players on the field to match the opposing team's numbers. Further, if this process leaves the larger team with too many players on the sidelines, the larger team shall "loan" players to the shorthanded team to allow as many to play as possible. Other creative solutions to the problem are encouraged at the discretion of the coaches and referees.
